

**Associate/Full Professor
Computational Biology and Bioinformatics
University of Southern California**

The College of Letters, Arts & Science of University of Southern California invites applications from world leaders in Computational Biology and Bioinformatics for an associate or full professor position. Candidates in all areas of computational biology and bioinformatics are welcome to apply with preference to individuals with expertise complementary to the existing strength of the program. The individual will assist in further strengthening and expanding the existing strong program. The potential candidate should have extremely strong publication and funding records. The position is in the interdisciplinary Program in Molecular and Computational Biology (MCB) in the Department of Biological Sciences. A joint appointment with other departments including computer science and mathematics as well as the Keck School of Medicine is possible. For additional information about our program, visit our website: <http://www.cmb.usc.edu/>

Review of applications will begin immediately. Interested candidates should email a curriculum vitae and research plans to: csearch@college.usc.edu or, if necessary, Eleni Yokas, Computational Biology Search Committee, Department of Biological Sciences, RRI201, University of Southern California, Los Angeles, CA 90089-2910.

USC strongly values diversity and is committed to equal opportunity in employment. Women and men, and members of all racial and ethnic groups are encouraged to apply.
